## **24.1-03-01-05. Apprentice electrician.**

**There are two categories of apprentice electrician training:**

1. Apprentice electricians who have successfully completed at least two years of electrical school approved by the board.
2. Apprentice electricians who have successfully completed five hundred seventy six hours of training classes recognized by the United States department of labor office of apprenticeship. An unlicensed electrician who has prior experience outside of the state of North Dakota may take a placement examination equal to the verification of practical experience obtained in order to apply credit toward the verification of hours. If the electrician fails the placement examination, the electrician is ineligible to retake the examination. An appeal would need to be submitted in writing to the board.

## **24.1-05-01-01(2). Electrical certificates.**

2. Before work commences on any electrical installation where a new entrance is installed, an existing entrance is altered or repaired, a building is moved, where a mobile home feeder is installed, or where the cost of the repair work or additional installation exceeds five hundred dollars, the master or class B electrician supervising such installation shall submit an electrical wiring certificate and distribute as follows:
